

-----  
Title: The Beginings of Aragothias..

Author: Sage Arianna  
-----

Aragothias,  
<Aa-r-a-go-thi-as>:

In this tome I shall  
seek to uncover some  
of the myth and  
legend of this great  
evil power. I must  
warn that very little  
is known even now  
after such horrid  
events that have  
transpired in my own  
generation...

There is nothing  
known of how or why  
this great power was  
created and put to  
form.. why this evil  
force has been  
brought to our world...  
It is known that he  
came from Hythloth,  
but what is secret is  
that while he came  
from that horrid place  
it was not allways so...  
before the gateway  
was opened it was a  
much diffrent place.

Aragothias first took  
the body and soul of a  
Great Lord of our time  
who he promised not  
only more power but  
immortality to  
sickness and old age...  
When the Great Lord  
accepted him as his  
vessel he became part  
of our existance and  
was no longer accepted  
in his own home.. that  
of Hythloth. The  
Great Lord became  
Lord of a great hall

high above the land in  
a keep on Covetous  
Mountains. His power  
extended to great  
length and was found  
to be a great danger to  
not only Humans but  
to all beings who  
embraced the light as  
opposed to darkness.

Aragothias saw his  
greatest threat not  
among mankind but  
from the skies above  
him, the mighty  
dragons... He invaded  
their lairs, their  
homes, their  
conclaves... where  
once was a healthy  
great relationship was  
mistrust and deceit...  
This is when and  
where the Corps of  
Kortia was born...  
they have spread  
propaganda across the  
land against the  
dragons persuading  
Humans to betray the  
hiding places and lair  
of the Dragonkin...  
The Dragons sought  
not a direct battle with  
the minions of  
Aragothias but 100 of  
the oldest and wisest  
Dragonkin surrounded  
the keep of Aragothias  
and cast a most  
destructive spell...  
100 words of...

"In Vas Por"

Filled the air and the  
keep of the Great Lord  
Aragothias was no  
more.

I write this book on  
the occasion that.....

\*looks to have been  
ended in a hurry as  
the handwriting is  
smudged with undried

ink\*

\*Extreamly hurried  
handwriting\*

I must hurry, the  
Corps of Kortia have  
saught to remove all  
record of Daemon of  
Aragothias... It is said  
that they wish his  
name never to be  
spoken... I hide this  
book away so that it  
may be spared from  
the flames of Kortia  
and that some record  
will be kept... he is  
still burried up there  
in the mountains... it  
is said there is great  
power in the name of a  
daemon... Know this  
then...

Aragothias is the  
name of the Great  
Lord whome the  
Daemon promised the  
Vile Gift to... The  
True name of that  
daemon is  
Phakebrus...

I now hide this book in  
a safe place away  
from the Corps... I  
hope this does some...
